

Unloaded FTP Keystone Patch Panel

Features & Benefits

- Fully shielded
- High density, 24 ports
- Suitable for FTP Tool-less Keystone Modules
- Suitable for Connectix Express assemblies
- Integrated cable management tray
- Earth connection
- Robust all steel construction

Specifications

Width	483 mm (19")
Depth	155 mm
Height	44.45 mm (1u)
Material	Mild steel
Finish	Fine textured black paint (front) Bright zinc plate (rear)

The Connectix 24 Way Keystone Patch Panels offer high density and the capability for 10G data transmission performance levels.

Supplied unloaded - the patch panel installation and termination time can be greatly reduced when Connectix Tool-less Snap-to-fit Keystone Modules are used in the panel.

To further increase on-site installation efficiency, Connectix Express Pre-terminated and Pre-tested Modules can also be used.
