

# DIGI-GSM GSM COMMUNICATOR

Partcode	DIGI-GSM
<b>Compatibility</b>	
HomeControl+ App	x
<b>Key Features</b>	
Formats	Contact ID, SMS
Voltage	+12VDC
Dimensions	110mm x 56mm x 10mm
Roaming capabilities	x
Warranty	2 years
<b>Certifications</b>	
Electrical conformity	CE
ATS	SP5
Environmental class	II

## Benefits:

- Uses mobile phone networks, excluding the Three network.
- Requires no cable to the panel and does not need mounting near a phone line.
- Can send text messages directly on the mobile network.
- Supplied with an antenna.
- Works on most major mobile phone networks excluding the Three network.
- Compatible with InSite programming software.

## Up/downloading over GSM

Allows communication between the panel and a PC running Pyronix UDL software for uploading and downloading, diagnostic interrogation and Automatic Remote Maintenance (ARM©) (subject to network).

## ARC Signalling over GSM

Allows alarm messages to be sent to a central Alarm Receiving Centre (ARC) via common protocols Fast Format and SIA.

## SMS Messaging

GSM allows text messages to be sent via GSM directly to up to 10 mobile phones.
